

The Futures Program is a program of choice. Students choose to join the program when they are ready to be active participants in their own learning. We encourage them to take responsibility for themselves and their success.

Our Vision

Be a school of choice for all learners; continuously striving to provide an innovative and responsible learning community.

The Futures Program

Futures Teachers

Devon Stokes-Bennett

(English & Socials)

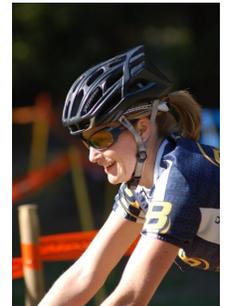

Devon believes in engaging her students in their own learning. Her main goals are to locate and target learning gaps and to help develop independent learners with lifelong skills. Devon has a strong humanities background with three bachelor degrees and is currently working on her Masters degree in Digital Literacy at the University of Victoria.

Dawn Anderson

(Math & Sciences)

Dawn is an enthusiastic teacher who loves teaching and learning, and enjoys sharing these passions with her students. She utilizes refreshing ideas in the classroom to engage learners using technology. Dawn is currently working on her Masters degree in Digital Literacy at Simon Fraser University.

Preparing for future success through community & innovation

The Futures Program is a program of choice which utilizes the newest ideas and technologies in education. The program focuses on preparing the students for THEIR FUTURES.

Students have the opportunity to work as cohort groups, building strong relationships with each other within a vibrant learning community. The teachers will work with the students to foster excellent foundational skills (a solid academic core) and then nurture academic, social and personal growth within an energetic and modern learning environment.

Students within the program are able to take advantage of this nurturing atmosphere for grade 9 and grade 10 as they complete their academic requirements as they advance toward their graduation.
