

Hello Sooke School Community

As you may be aware, Sooke School District is building a new middle and elementary school in west Langford. The schools will be open in September of 2022. In early October 2019, we sent out this survey tool, thoughtexchange, to our families and the community. This survey closed on November 1st, 2019.

Thank you to the many participants that took the time to suggest names for our new schools and to rate the thoughts of others. The input and suggestions that were provided through **thoughtexchange** are being combined with feedback from staff, our Indigenous partners, and other inputs in order to bring recommendations to the Board of Education. Your input will greatly assist the Board in making this important decision

Please take a look at the Exchange details by clicking on the links below:
