Welcome to Canada

PRIMARY AND SECONDARY EDUCATION IN CANADA

In Canada, parents and guardians must make sure their children get an education.

TYPES OF SCHOOLS

Each of Canada's provinces and territories runs its own education system. The schools in these systems are called public schools, and they are free (funded by taxes).

Public schools are available in both English and French in many areas.

There are also private schools, which are usually not funded by governments. There are fees to send children to private schools.

THE SCHOOL YEAR

The school year starts in late August or early September, and finishes in June, with holiday breaks during the year. Children attend school from Monday to Friday. Schools close on public (statutory) holidays.

Contact your local school or provincial ministry of education to learn how to register your child in school. A list of provincial ministries of education can be found at www.cmec.ca.

HOW TO REGISTER A CHILD FOR SCHOOL

To register, you will need to show documents that prove

- the child's age (such as a birth certificate or passport)
- your guardianship
- where you live (your home address)
- that your child's vaccines are up to date (a record of immunizations)

SETTLEMENT WORKERS IN SCHOOLS

Many schools have settlement workers to help children, youth and parents who are new to Canada. Ask your school about these resources.

AT-HOME EDUCATION

Some parents choose to teach their children themselves. This is called at-home education or home schooling. If you wish to teach your children yourself, you should contact your provincial or territorial ministry of education or your local settlement service provider for more information.

LANGUAGE OF EDUCATION – ENGLISH AND FRENCH SCHOOLS

English-language and French-language schools are available in many communities across the country. Some English-language schools also offer immersion programs in French. This means that children are taught in French for most of the school day.

For information about schools in Canada that offer courses in French, visit www.elf-canada.ca.

YOU CAN GET INVOLVED IN YOUR CHILD’S EDUCATION BY

- volunteering at your child’s school
- meeting your child’s teacher(s) at parent–teacher evenings
- becoming a member of the school council (which contributes to managing the school)
- asking the school, or your child’s teacher, for more information on how you can get involved

OTHER IMPORTANT THINGS TO KNOW

Elementary or primary education: This is the first 8 grades of school. It usually starts with kindergarten at age 4 or 5.

High school or secondary education: This usually runs from grades 9 to 12 in most Canadian provinces and territories, except Quebec, where it starts in grade 7 and ends in grade 11.

Mixed classes: In most schools, boys and girls learn together in the same classroom. Some private schools offer schooling for boys or girls only.

Religion: Some provinces and territories have separate Catholic public schools. Some communities also have private religious schools.

Additional school activities: In Canada, students can participate in additional activities at schools, outside of classes. These are called “extracurricular” activities, and they can include sports, clubs, drama, arts and music programs, and school-organized trips and special events.

For example, many schools recognize Orange Shirt Day on September 30. Participants wear orange shirts to commemorate and raise awareness about the impacts residential schools had on Indigenous children, and how they continue to affect Indigenous communities in Canada to this day.

MORE INFORMATION

For more information about education, including a video, visit canada.ca/newcomers-education.

To find newcomer settlement services in your area, visit canada.ca/find-newcomer-services.

HOW CAN I HELP MY CHILD?

Here are a few ideas to support your child at home:

- * Continue developing first language at home through songs, stories, and conversations. Ask what they are learning about in the classroom, and talk about it in your home language.
Research shows students who continue to use their home language typically develop a rich vocabulary and strong academic skills in English.
- * Look at these websites for a great selection of bilingual stories:
[WorldStories](http://worldstories.org.uk) (worldstories.org.uk)
[Unite for Literacy](http://uniteforliteracy.com) (uniteforliteracy.com)
[Storybooks Canada](http://storybookscanada.ca) (storybookscanada.ca)
- * Play board games, e.g. Scrabble, Bingo.
- * Read daily in any language. Talk about the story, then draw or write about a favourite part.
- * Encourage writing— grocery lists, stories, emails to friends and family, a journal etc.
- * Get involved with the school community: attend parent teacher meetings, join the PAC (Parent Advisory Committee), participate in school events).

ELL SPECIALIST TEACHERS:

- * have specialized education and are trained in ELL methodology
- * assist students through the various stages of second language acquisition, in their growth toward bilingualism
- * collaborate regularly with classroom teachers, school staff, parents and community agencies
- * may be included at school-based team meetings that involve ELL students as needed

English Language Learning (ELL) Support For Families

The primary goal of the British Columbia school system is that of student success through intellectual, social-emotional and career development.

The purpose of ELL services is to support student success and inclusion in school and society.

(MOE—ELL Policy Guidelines—2018, p.4)

ENGLISH LANGUAGE LEARNING (ELL) DEPARTMENT

Benefits of ELL:

SD62 schools value diversity. Schools welcome and celebrate families that speak a variety of languages. ELL services help students to reach their full, individual potential. We encourage our students to continue to develop their home language(s).

ELL support can help...

Promote a sense of pride and understanding of various cultures and languages

Provide a safe, nurturing learning environment

Develop social and academic language skills

Social language that is used everyday to communicate, usually emerges quickly. It takes up to 2 years for this to develop.

Academic language that is found in textbooks and the curriculum, takes at least 5-7 years to develop. ELL support is essential for academic success.

For more information, please contact the school's ELL teacher.

PROGRAM GOALS

- * to develop social and academic English language skills
- * to provide support for students to achieve the provincial curriculum
- * to provide an orientation to the societies and cultures of British Columbia
- * to bridge cultures and facilitate referrals to Settlement Workers In Schools (SWIS) through ICA as needed
- * to value students' diverse cultural backgrounds, many languages and wealth of knowledge and experience
- * to work to eliminate racism
- * to welcome all students and ease their transition into Canadian life and culture
- * to provide a safe, nurturing learning environment

ELL service may look like:

- * Individual or small group instruction
- * In-class support (through consultation with the classroom teacher)

Documents kept by ELL Specialist:

- * Annual language assessment
- * B.C. ELL Standards (continuum of descriptors for oral, reading, writing)

HOW CAN I GET ELL SUPPORT FOR MY CHILD?

- * The BC Ministry of Education recognizes the important contributions of newcomer families and provides funding and support to school districts.
- * If your child's primary or home language is not English, and you think that they may need support, please speak with your child's teacher or the English language specialist teacher at the school.
- * English language specialist teachers will assess your child's language proficiency levels for speaking, listening, reading and writing. This will help to determine the type and frequency of support that best suits them.
- * Language learning can take many years to develop. Every child progresses at different rates. Some students may require less time and others more. There are many factors that impact language acquisition. Some factors are:

Age of arrival
English proficiency upon arrival
Extent of schooling in first language
First language proficiency
Work habits
Motivation
Exposure to English outside of school

Play, Songs
Painting,
Stories!

and More!

**STRONG
START**

AGE 0-5 YEARS OLD

- Free drop-in program for children 0-5
- Parent participation required
- bring child's birth certificate or passport to register.
- Space is limited each day until filled.
- Dress your child for indoor and outdoors play, especially for outdoor programming days.

The Strong Start follows the SD62 Calendar.

Please contact the individual school for questions about programming, closures and registration

**FOR MORE
INFORMATION VISIT:**

Strong Start is funded through the Ministry of Education and Childcare

Shaping Tomorrow Today

WHAT IS STRONG START?

Locations and Times- 2024/2025

Colwood Elementary

Address: 3000 Wishart Road
Office: (250) 478-2332

9:00 - 12:00 pm | Monday - Friday (indoors)

John Muir Elementary

address: 7179 West Coast Road, Sooke
Office: (250) 642-5427

8:30 - 11:30 am | Mon, Wed, Thurs, Fri (indoors)
11:45 am-2:45 pm | Tues (outdoors)

Millstream Elementary

Address: 626 Hoylake Road
Office: (250) 478-8348

8:30 - 11:30 am | Monday, Tuesday, Wednesday,
Friday (indoors)
8:30 - 11:30 am | Thursday Goldie Park

Hans Helgesen Elementary

Address: 4983 Rocky Point Road. Victoria
Office: (250) 478-3431

8:30 - 11:30 am | Tuesday (indoors)

12:30 - 3:00 pm | Wednesdays (outdoors)

Dress to be outdoors!

Monthly Rotating Locations

1st Wed of month: Witty's Lagoon

Week 2: East Sooke Park

Week 3: Devonian Regional Park

Week 4: Matheson Lake

Willway Elementary

Address: 2939 Mt. Wells Drive
Office: (250) 478-1213

8:50 - 11:50 am | Mon to Fri (indoors)

Ruth King Elementary

Address: 2764 Jacklin Road
Office: (250) 478-8368

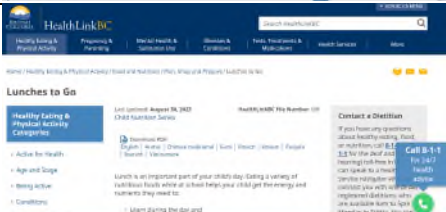

8:35 - 11:35 am | Mon, Wed, Thurs, Fri (indoors)
Tues 8:30 -11:30 am at Centennial
Park on Carlow Road - (outdoors)

Free family drop-in program for children aged 0-5 years that provides play-based opportunities that support children's growth and development.

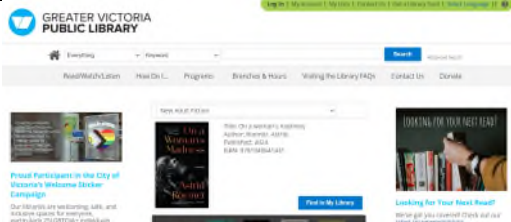

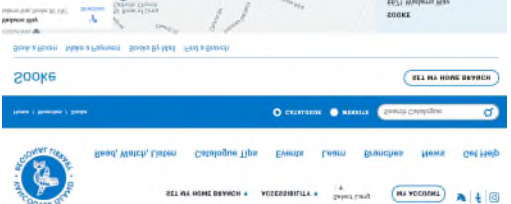

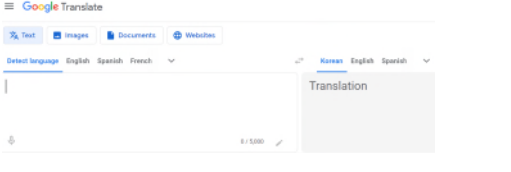

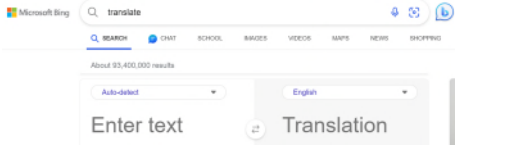

Qualified Early Childhood Educators lead learning invitations where children find opportunities to build connections through play and interact with others of similar ages. This drop-in program for children aged birth-five years old requires parent participation. Children will engage in play-based activities including stories, music and art.

Google Translate

Translate emails and websites

Google Translate is a free translation service that translates text, websites, and direct speech from one language to another, in 108 languages.

Click here to try! 

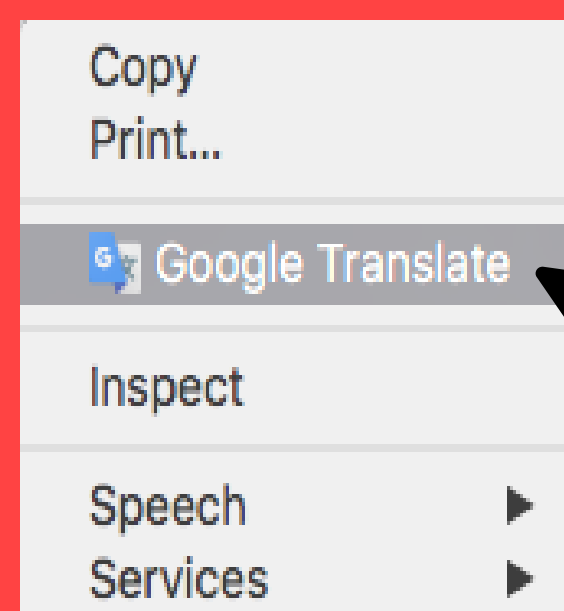

Use speech and text features to communicate using different languages

On the Computer

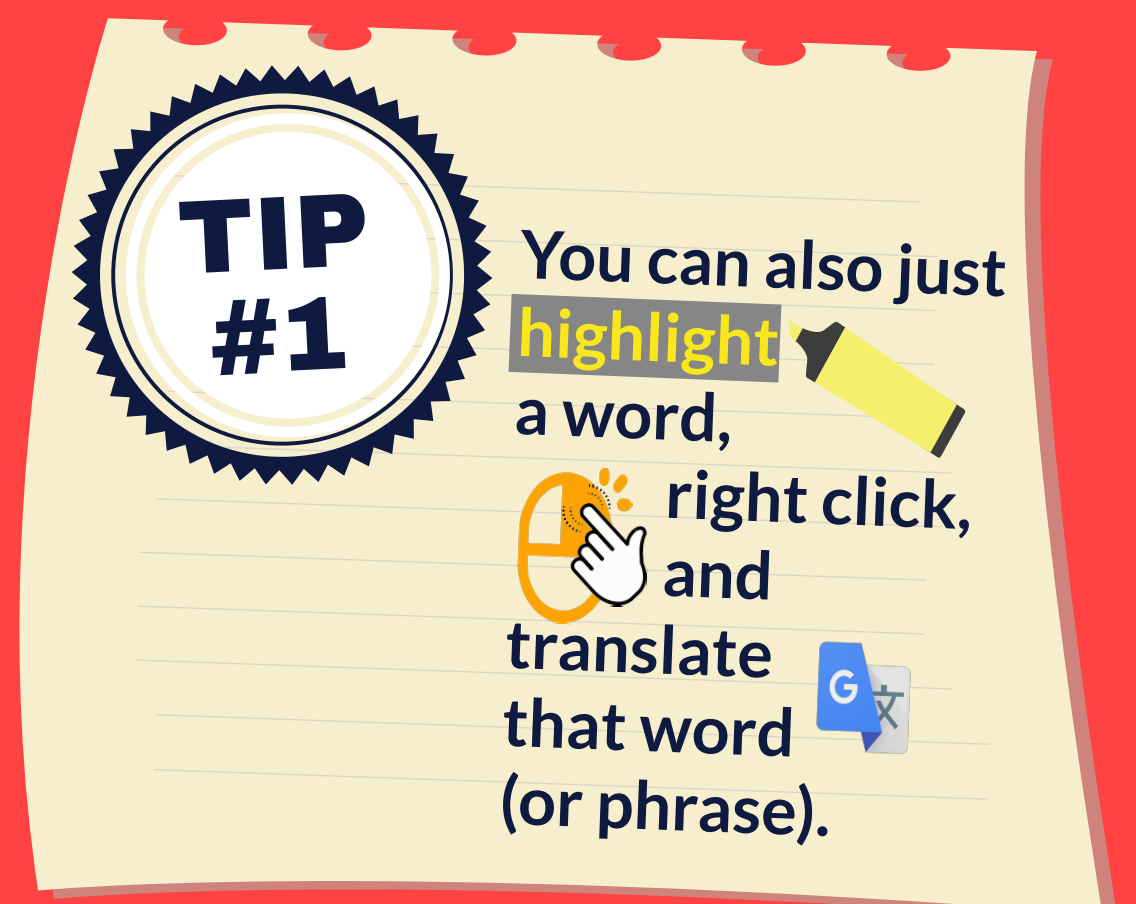

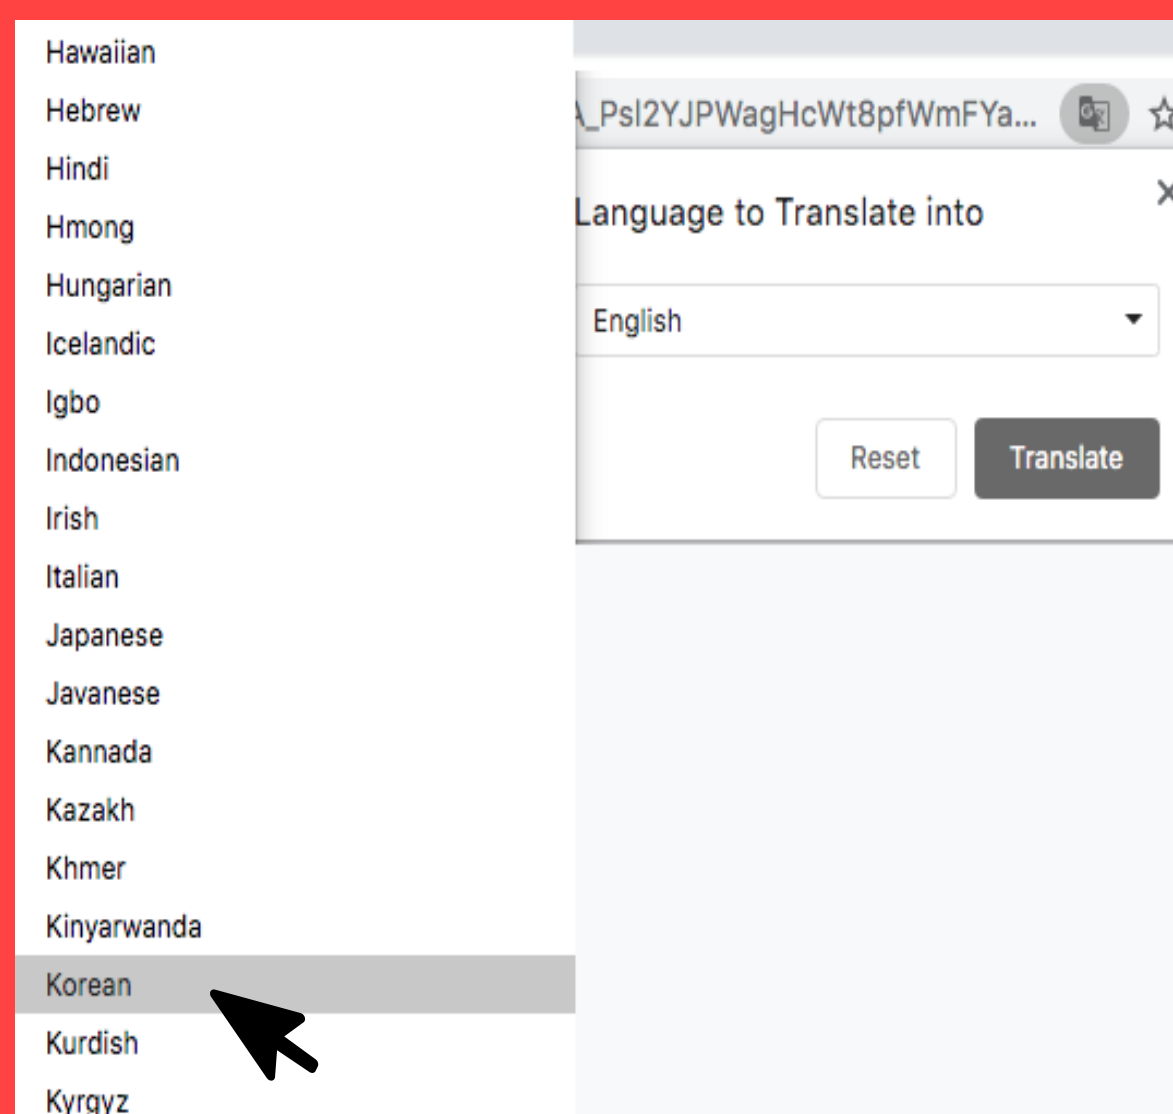

1 You must use the Google Chrome internet browser

2 Right click anywhere on your screen

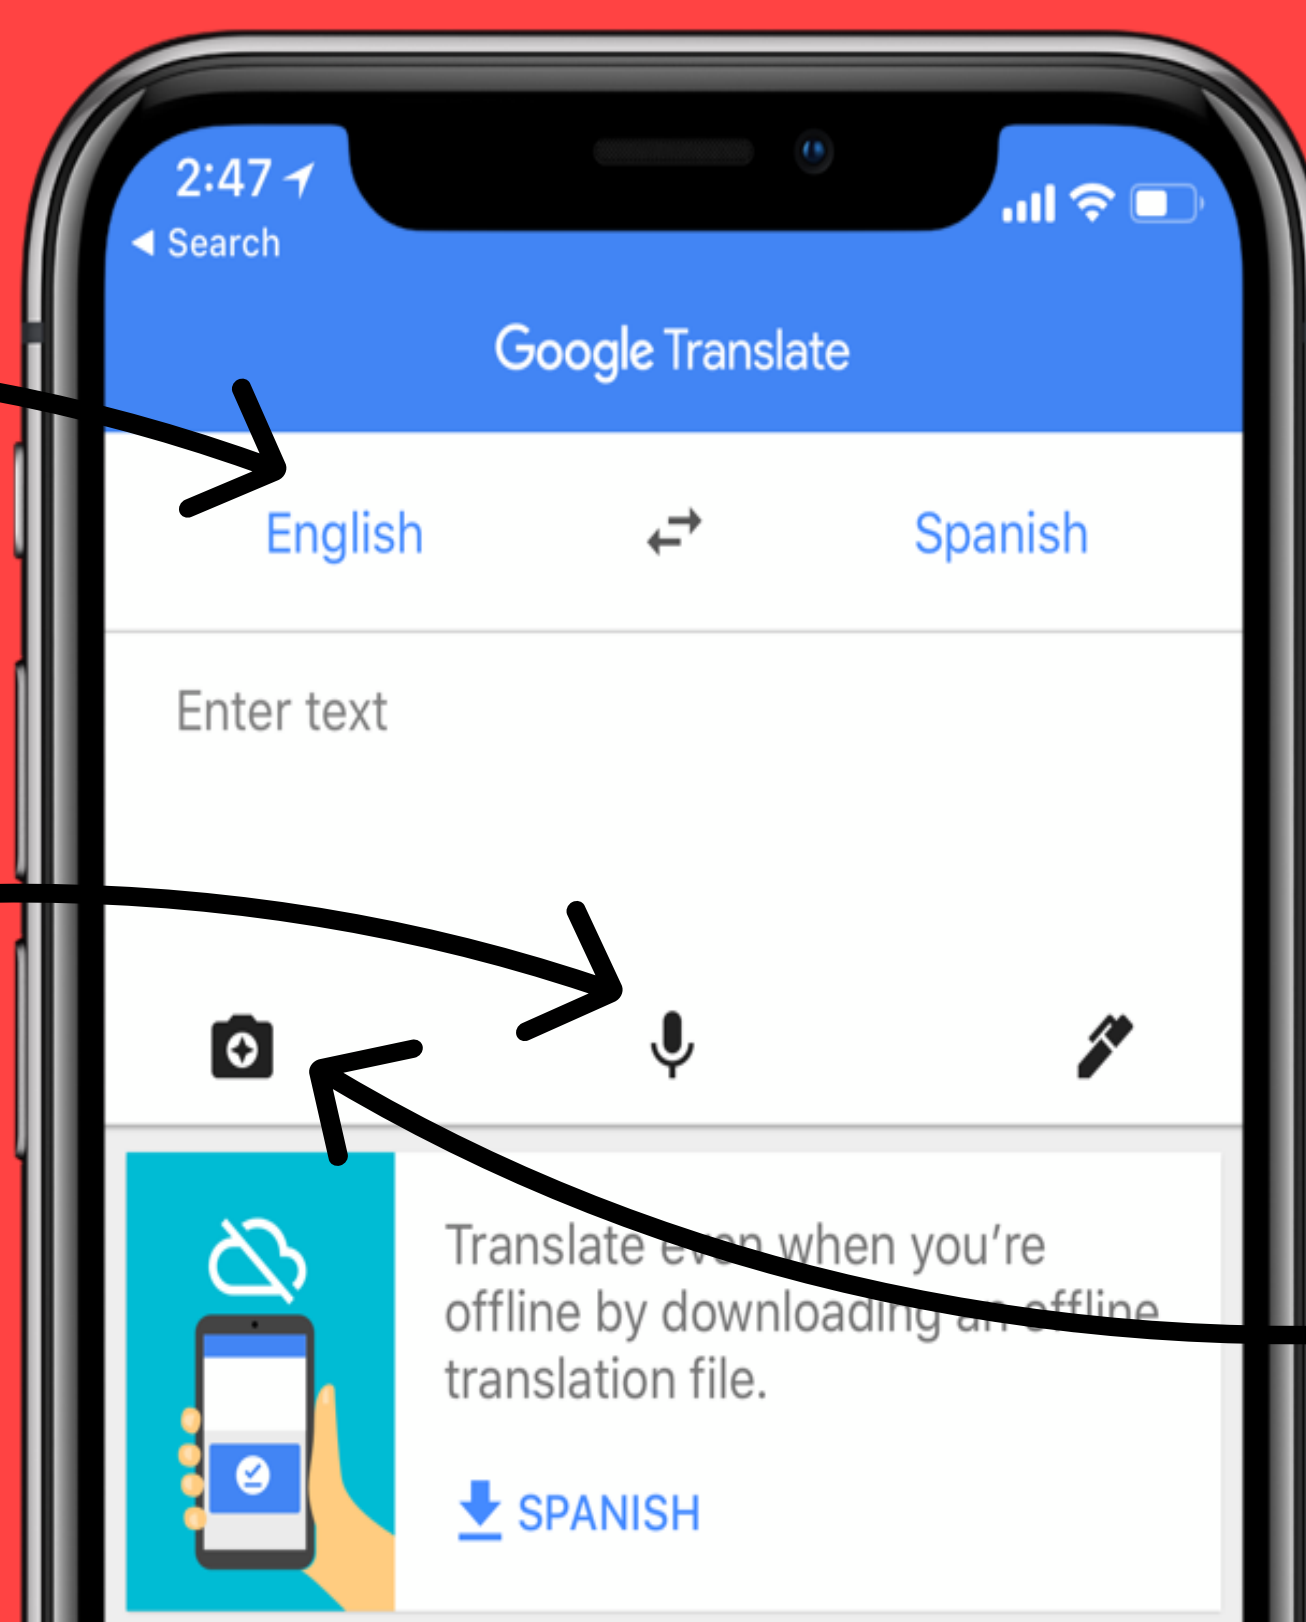

3 Choose your language and translate the entire webpage

On a Cellphone

- Choose which language is the input language as well as the output translation language
- Type text or speak using the microphone feature and the language will be translated to your chosen translation

- Download from app store onto phone or tablet
- You can also use the camera feature to view text and change it to your desired language translation
