# Colwood Women's Institute South Vancouver Island District Serving Our Communities Since 1909

January 31, 2024

One of the mandates of the Women's Institute of Canada is to ensure our schools are safe and healthy for our children. We do not feel they currently are safe or healthy for our children to attend.

We at the Colwood Women's Institute have been taking notice of the overcrowding of the public schools in our area. These schools are also housing very large populations of students and providing very little supervision especially in our middle and high schools. For example, student body at Dunsmuir middle school is 600 students, Spencer middle school is 610, Belmont High School is 1462 and Royal Bay High School is 1480. All of these schools are over their built capacities.

We are aware that our government is taking steps to build new schools in our area to alleviate some of these problems which is needed to get our schools to at or below their intended capacities. We also recommend that we have schools built in new neighbourhoods as the neighbourhood is being built, by the developer, so that our children don't have to be housed in overcrowded schools and in portables, in an earthquake zone, while they wait for the school board to build new schools to keep up with the development that is occurring in our area. We won't ever get out of this cycle of overcrowded unhealthy schools until the development of neighbourhoods include schools as part of their initial building plans.

The other huge issue is the lack of supervision of these sizes of student bodies. Students are being sexual assaulted walking into schools, they are being sexually harassed going to the washroom in non gendered bathrooms. There are overdoses occurring in unsupervised washrooms. Our schools are out of control and we need more funding and more adult supervision during the "not in class time" to be implemented immediately. We need our schools to be safe for our students to attend. Even our elementary schools do not have enough supervision occurring during the break times of day, such as lunch and recess outside breaks. 1 adult per 100 students is not enough!

We are happy to discuss this further, at your convenience.

# The 49th Greater Victoria Flower Count SCHOOL CHALLENGE

The sun has arrived, warmer weather has returned, and hoodies are slowly replacing jackets as early spring arrives in Victoria, BC. Join the fun and get your class outside to practice their counting skills alongside Mother Nature!

### What is Greater Victoria Flower Count?

The Flower Count is an annual light-hearted promotion put together by the Victoria Flower Count Organizing Committee. The goal is to increase awareness of Greater Victoria as an attractive shoulder-season tourism destination. It brings national and international attention to the fact that Greater Victoria ("City of Gardens") and adjoining communities have the mildest climate in Canada. In early March, while the rest of Canada and much of the US is still in the cold clutches of winter weather, Greater Victoria often enjoys spring temperatures of 10-15° Celsius.

#### **How Many Blooms Are Counted?**

Year over year the Greater Victoria Flower Count continues to grow in popularity with more than 33 billion (yes, that is a "b" not an "m") blooms counted all over the Greater Victoria area in 2023. With community engagement, early spring weather and renewed enthusiasm from area schools and students using the count as a class exercise to get outside and smell the cherry blossoms, the event creates a fun promotional story through the counting of flowers.

#### How Does it Work?

For one week, the citizens of Greater Victoria count all the blossoms they can find. The results are then reported to <u>www.flowercount.com</u>. For **45+ years**, media across North America have followed Greater Victoria's annual Flower Count, with the final tally proudly announced at the end of Flower Count Week.

### **School Challenge**

The class that counts the most blossoms will win a special class prize and be featured on the website as this year's winner! Use the Student Count Sheet, and submit your class count at <a href="https://flowercount.com/schools/">https://flowercount.com/schools/</a>

#### **Community Challenge**

Each community across Greater Victoria is encouraged to take up the challenge to be the "Bloomingest Community" of the Greater Victoria area! People reporting flower counts will have their numbers attributed to their community. As you might know from previous Flower Counts, a winning municipality is declared at the end of the count. This is a fiercely fought battle, but all in good fun. You are welcome to encourage residents of your community to take part in the count, and challenge your fellow communities in the spirit of a little light-hearted competition.

# Information Note Public Board Meeting Agenda Item 7.2: Enrolment Update: February 1701 Data

# Purpose

To provide the Board with an update on the February 1701 process and current enrolment.

**Background:** As part of the annual process of reporting enrolment figures to the Ministry, we submitted our February 1701 final report to the Ministry of Education on Friday, February 17th, 2023.

Highlights from the report: a) in K-12 enrolment b) in English Language Learner enrolments c) in Indigenous Student enrolment d) in student designation claims (enrolment) e) French program enrolments.

**Process Update:** One significant enhancement in this cycle was the proactive involvement of District Principals throughout the process. This change stems from our reflective review after the September cycle and is an indication of our collaborative efforts towards inclusion and accessibility of the information. Additionally, we have developed a PowerBI dashboard on Engage, designed to mirror the report updates daily. This resource provides immediate access to the most current planning-level information.

# Public Board Info Note February 27, 2024 Agenda Item: 7.3 24/25 Enrolment Update

# **Background**

- Staff have recently submitted the enrolment estimates for the 24/25 school year to the Ministry of Education (attached)

# Section 3 – Q2 Updates - Engagement

ENGAGEMENT	ENGAGEMENT			
2023-2024 Operational Plan Item	Progress			
Develop a Records Management policy for the Board with the intent of developing a proposal for building out a sustainable capability (staff, software systems, resources)	<ul> <li>Consultants engaged and completed 21 interviews ranging from Executive to include all district departments, support groups, and school PVP representatives across levels. Work on identifying gaps and synthesizing recommendations into a summary for the Executive has been initiated.</li> </ul>			
Develop a model to support succession planning for the Leadership Team.	<ul> <li>We have created a "heat map" succession planning template to be used by departmental leaders to identify key roles and plan for anticipated vacancies in the short, medium and long term. Discussions are ongoing about potential refinements to the current "pool mechanism" used to identify upcoming PVP vacancies and potential successors.</li> </ul>			
Implement an accessibility plan, develop an accessibility committee and engage in a feedback mechanism for issues of accessibility in the district.	• The Accessibility Committee has met several times and reviewed data through the Feedback Mechanism and reports from the Facilities department. Recommendations for areas of focus have emerged through this review.			
Create authentic learning resources and narratives to support the teaching of local Indigenous languages in schools.	<ul> <li>The NA'TSA'MAHT Indigenous Education (NIE) department organized authentic video resources that were filmed last summer, edited and released for this Winter/Spring featuring local Elders sharing stories, songs and local language. This is part of a multi-year project to increase authentic First Peoples resources for SD62 Teaching staff.</li> <li>Tri-district (61, 62, 63) initiatives to share local resources between the 3 districts.</li> <li>SENĆOTEN Kindergarten language program underway in 5 Elementary Schools.</li> <li>SENĆOTEN Language Videos &amp; Supporting Resources promoted by the NIE department.</li> <li>Discussions around Pacheedaht language resources started.</li> </ul>			
To support graduation and improved life outcomes for students with Indigenous ancestry by utilizing a data-gathering tool to	• The Indigenous Information Management System (IIMS) Tool has been fully implemented by the NIE department and their staff.			

		Page 59 of 81
track indicators of academic, social- emotional and engagement attributes.	•	The tool tracks services provided by NIE department and collects data to inform Pathways to Graduation meetings at schools across the district, providing data on each student and the services they are receiving which allows staff to reflect on the efficacy of current service delivery and make data-informed decisions about programming and supports.
Continue to implement the Strategic Communications Plan to develop, expand and implement respectful, effective, clear and transparent communications. Expand the Plan to include a focus on digital skills and digital resources for staff to use. Broaden out the reach of district Communications to provide equity of inclusion to specific schools that have received little or no coverage on the district website or social media.	•	Work continued in Q2 on the implementation of the 2023-24 Strategic Communications Plan. The plan encompasses a broad spectrum of activities, ranging from handling general inbox messages to responding to parent phone calls, supporting Principals and Vice Principals (PVP) with time-sensitive communications, and collaborating with other departments for the awareness and implementation of their initiatives. Regular assessment and refinement of the plan are ongoing, driven by feedback and evolving needs. In Q2, the Manager of Strategic Communications attended courses including Incorporating Digital Accessibility Within Communications, and Al's Impact on Digital Content. To enhance equity of coverage, a list of schools with limited inputs on the district website and/or social media has been identified. In the second quarter, the Communications Manager attended middle and secondary-level meetings, emphasizing the importance of sharing events and achievements. Ongoing collaboration with Associate Superintendents is planned to support the inclusion of events and achievements from schools.
Continue to develop, expand and implement a culture of wellness in the district through the Healthy Schools Healthy People plan and include work on: (1) The Feeding Futures Fund; (2) Digital safety and wellness.	•	In Q2, the food delivery service increased the number of meals from 545 to over 650 inclusive of breakfast and lunch. Feedback from schools and partners has been very positive.

The planned path forward was presented at the December Leadership Team Meeting. Minimal feedback was received, but those who responded were supportive of the direction to be taken. The HR and Digital Solutions team are working to refine attendance statistics to ensure accuracy and ease of reporting.

# Section 4 - Q2 Updates - Growth

GROWTH		
2023-2024 Operational Plan Item	•	Progress
Receive approval for and implement a Speci- Hiring Program, including the development and implementation of a supporting equity hiring practices policy.	al •	The item has stalled as staff have not been able to secure a letter of full support from union partners that would be provided with the district application to the Office of the Human Rights Commissioner. Discussions continue.

	Page 60 of 81
Implement audit recommendations for diversity, equity, and inclusion (DEI) to strengthen organizational practices.	<ul> <li>Implementation was delayed in Q2 while awaiting the report from the consultant who undertook analysis on DEI in the district.</li> </ul>
Create and implement the use of technical specifications that complement the design guidelines and standards and expand implementation to existing spaces.	• Technical Specifications that complement the Design Guidelines are on the way to being fully developed. They are utilized with contractors and architects as we design new schools.
Implement the Long-Range Facilities Plan (LRFP) to support annual and multi-year space planning activities.	<ul> <li>The final draft of the LRFP was received at the end of Q2. The report was provided to the Resources Committee and the Board of Education Meeting in January 2024. Final adjustments to the plan included the recent Ministry funding to provide 16 prefabricated classrooms to two elementary schools in the district. The LRFP is a key district document and will be used to inform and support the district's annual major and minor capital plan submissions in June and September 2024 and beyond.</li> </ul>
Develop and undertake a scan of available information and data about the district ahead of renewing the strategic plan.	<ul> <li>In Q2, staff administered a community survey (students, parents, staff, and the public) on the current vision, mission, values, and thoughts on external opportunities and threats to the organization. Over 1700 people provided data to the survey. Stakeholder groups fed into the process by providing their thoughts on the future concerning education, politics, economics, and environmental forces that could impact the district. Staff attended the NA'TSA'MAHT Education Council to gather feedback from members on the vision, mission, and values. The Leadership Team provided a SWOT Analysis of the district's strengths, weaknesses, opportunities, and threats for the board to consider as they look to plan for the years ahead.</li> <li>The Environmental Scan (E-Scan) report was drafted and largely completed in Quarter 2. It will be used by the Board of Education as they develop their vision, mission, values and beliefs as part of the process of developing a new strategic plan.</li> </ul>
Develop a strategy to ensure effective community use of our spaces.	• The strategy has been completed. More SD62 spaces can be booked by the public, fulfilling the Board's desire to have more district facilities available. The resulting additional revenue generated pays for the increased need for custodial and maintenance services. Providing bookable spaces also enhances the culture of social responsibility that the district is pursuing in the Strategic Plan 2021-2025.
Develop and implement a digital governance policy and structure which formalizes the Board's role in overseeing Digital Solutions including the acquisition, integration, and management of digital assets in support of educational and support services.	• A governance model for ensuring appropriate oversight of Digital Assets (Software, 3rd Party Cloud Services, hardware) was proposed to the Leadership team for consultation and feedback. This is in support of Board Governance around ensuring the protection of Security, Privacy, Risk, Support, Records Management, Data Integration, Business Continuity, Disaster Recovery, and overall Value associated with the procurement and project implementation (timeline, effort estimation) of these services.
Continue to raise awareness, provide training and implement cyber security and privacy policies in partnership with curriculum, inclusive, and safe school objectives.	<ul> <li>Implementation of the cyber security and privacy training module from our vendor partner allowed a successful delivery of training to a section of CUPE staff members during CUPE Pro-D day. A plan was developed to deliver the training as a response to privacy breaches. Trial implementation of Mobile Device Management (MDM) for Apple devices and trial of</li> </ul>

	Page 61 of 81
	Intune continues. Successful rollout of Multi-Factor Authentication (MFA) to a pilot group was completed in Q2.
Investigate the requirements to integrate data across Business (Finance, HR) and Education departments to align resourcing across Strategic and Operational Objectives linking back to Student Success.	<ul> <li>Interviews with HR, Finance, Facilities, Capital Planning, Communication, and Executive Operations leaders were conducted as part of the investigation into data integration. Many operational reporting and analytics needs from each area were identified. However, staff in these departments did not see a direct link between their work and student success metrics.</li> </ul>
Develop a sustainable proposal to provide equitable access to technology for students and support staff.	• The work of the Student Device Working Group was presented to the Leadership Team. There are approximately 7000 student devices in the district which have been procured, over the years in a decentralized manner. Staff are working on a plan and template to ensure equity, support, literacy, and training. Options for funding include the exploration of centralized, decentralized, and hybrid approaches.
Conduct an environmental scan of organizational design structures for the delivery of central administration and support services within large BC school districts in support of future strategic planning.	<ul> <li>This project is in the beginning stages. Staff have collected organizational charts from several BC public school districts, with an emphasis on those districts that are of equal or greater size than SD62.</li> </ul>
Develop a plan to increase the number of childcare spaces on school grounds by looking to utilize grants to support the construction of new spaces.	<ul> <li>Consultation with school and community partners informed the final stages of a Childcare BC New Spaces Fund grant application for Hans Helgesen school grounds.</li> <li>Concept design work for Hans Helgesen Childcare Facility was started in late November 2023 with the company <u>Public: Architecture &amp; Communication</u>.</li> <li>Outreach to existing local childcare providers, Hans Helgesen StrongStart Program and Metchosin Community House's Parents &amp; Tots Program Participants was undertaken to gather input about waiting lists and childcare needs.</li> <li>SD62 Third-party childcare provider leases and lease rates were reviewed and as a result, <u>Board Policy F-302 Use of School Facilities for Child Care Programs</u> was revised.</li> </ul>
Continue to implement the Energy Sustainability Plan by reducing our vehicle and building Greenhouse Gas emissions towards the 2030 provincial targets.	• Implementation of the Energy Sustainability Plan continues as the district works to reduce its vehicle and greenhouse gas emissions towards the 2030 provincial targets.
Create an ethical framework for decision- making to guide board-level decisions through a lens of diversity, equity, inclusion, and social responsibility.	• Work continues exploring existing ethical frameworks. Community partners were asked for feedback, at the Resources Committee in November, on what factors should be considered in the development of an ethical decision-making framework.

# SCHOOL BOARD POLICY

The District recognizes the importance of access to affordable, quality child care on school grounds because positive opportunities for children ages birth to five years impact the success of students from Kindergarten to Grade 12.

Consistent with sections 85.1, 85.2, 85.3 and to 85.4 of the *School Act* and Ministerial Order **326/20 – the Child Care Order**, this policy provides guidance with respect to how the Board will promote the use of Board property for the provision of child care programs, between the hours of 7 a.m. and 6 p.m. on business days, by either the Board or third-party licensees. Use shall be subject to the details outlined below.

Quality, accessible and affordable child care provides significant social and economic benefit for the community. Research shows that quality child care has a direct relationship to school readiness, literacy development, poverty reduction, and community engagement. While the funding and regulation of licensed child care is primarily a provincial government responsibility, the District, along with community stakeholders, can play an important role in planning, developing and coordinating child care in the Sooke School District.

The District supports non-profit societies and/or associations in delivering quality, accessible and affordable child care within District facilities and grounds, and provides the authority for the District itself to provide child care services.

The use of Board property by licensed child care providers must not disrupt or otherwise interfere with the provision of educational activities, including early learning programs and extracurricular school activities.

# **1.** Procedures:

# 1. Assessment of Community Need for Child Care:

1.1. 1.1 The Board will, on an ongoing basis, assess community need for child care programs on Board property, through a process of engagement with employee groups (Sooke Teachers' Association [STA], Canadian Union of Public Employees #459 [CUPE]), parents and guardians and caregivers (Sooke Parent Education Advisory Council [SPEAC]), Indigenous community representatives, Indigenous rightsholders, Indigenous service providers (Aboriginal Education Council), municipalities, community partners, and existing child care operators. The process for engagement will be reviewed on an ongoing basis.

1.2. **1.2** If child care programs are to be provided on Board property, the Board will consider, on an ongoing basis, whether those programs are best provided by licensees other than the Board, the Board, or a combination of both.

### 2. Hours of Operation:

- 1.3. **2.1** The hours of operation will be between 7:00 am to 6:00 pm, Monday to Friday, throughout the school year.
- 1.4. **2.2** If the child care services will operate outside of the school calendar, the Superintendent of Schools, or designate, will review feasibility with the Director of Facilities and School-based Administrators prior to approval.

### 3. Program Fees:

- 1.5. **3.1** Child care programs, if operated by the Board, will be operated for a fee no greater than the direct costs the Board incurs in providing the child care program.
- 1.6. 3.2 Fees for the use of Board property by licensees other than the Board will not exceed the direct and indirect costs the Board incurs in making Board property available for the child care program. All child care contracts must bear all costs associated with the delivery of the program. The School District will not subsidize any community use of the facility or sites from instructional resources.

# **1.1.**3.3 "Direct and indirect costs" could include, but are not limited to:

3.3.1 Utilities;

# 3.3.2 Maintenance and repair;

3.3.3 A reasonable allowance for the cost of providing custodial services;

# **3.3.4** A reasonable allowance for the time that school district administrators and other staff spend on matters relating to the use of board property by licensed child care providers.

**1.2. 3.4** If child care programs are operated by a licensee other than the Board, the Board will require the licensee to agree to comply with this Policy.

# 4.0 Application Process & Licensee Contracts:

- **1.3. 4.1** In selecting licensees other than the Board to operate a child care program, the Board will give special consideration to the candidates' proposals to: (a) provide inclusive child care; and, (b) foster Indigenous reconciliation in child care, (c) maintain a program philosophy and management concept that aligns with our child care policy and our Strategic Plan, (d) implement the goals of the B.C. Early Learning Framework, and (e) opt into the Provincial Fee Reduction Initiative.
- **1.4. 4.2** If the board decides to operate a child care program, the board will ensure that it is operated in a manner that:

- **4.2.1** fosters Indigenous reconciliation in child care. In particular, the child care program will be operated consistently with the following principles of the British Columbia *Declaration on the Rights of Indigenous Peoples Act:* 
  - **4.2.1.1.** Indigenous peoples have the right, without discrimination, to the improvement of their economic and social conditions, including in the area of education; and
  - **4.2.1.2.** Indigenous peoples have the right to the dignity and diversity of their cultures, traditions, histories and aspirations which shall be appropriately reflected in education; and
- **4.2.2.** is inclusive and consistent with the principles of non-discrimination set out in the British Columbia *Human Rights Code*.
- **4.3.** Any contract with a licensee other than the Board, to provide a child care program on Board property, must be in writing and subject to **regular** review <del>annually (no less than every one (1) year)</del>. The contract must contain:
  - **4.3.1.** a description of the direct and indirect costs for which the licensee is responsible;
  - **4.3.2.** an agreement by the licensee to comply with this policy and all other applicable policies including adherence to schools' Code of Conduct and school rules;
  - **4.3.3.** a provision describing how the agreement can be terminated by the Board or the licensee;
  - 4.3.4. a provision describing how the program will serve students of the school;
  - **4.3.5.** an allocation of responsibility to ensure adequate insurance is in place to protect the interests of the Board;
  - **4.3.6.** a statement that the agreement can only be amended in writing, signed by the Board and the licensee;
  - **4.3.7.** a requirement for the licensee to maintain appropriate standards of performance; and
  - **4.3.8.** a requirement that the licensee must at all times maintain the required license to operate a child care facility; **and**
  - **4.3.9.** an understanding that the licensee will work in co-operation with the District's Early Years' staff on on-going professional development.
- **4.4.** The Secretary Treasurer or designate shall have the authority to evaluate and make decisions with respect to applications to provide child care on Board property in a manner that is consistent with Board policy.
- **4.4** Prior to entering into or renewing a contract with a licensee, other than the Board, to provide a child care program on Board property, the Board will consider:
  - **2.10.1 4.4.1** whether it is preferable for the Board to become a licensee and operate a child care program directly;
  - **2.10.2 4.4.2** the availability of school district staff to provide before and after school care;
  - 2.10.3 **4.4.3** whether, with respect to a licensee seeking renewal or extension of a contract, the licensee has performed its obligations under this Policy and its

contract with the Board, in respect of providing an inclusive child care program and one that promotes Indigenous reconciliation in child care.

2.10.4 Upon receipt of an application, district staff will review the application's feasibility, available space in the school, and whether the school can accommodate any improvements that may need to be made in order to conform to licensing requirements.

# **Distinctions-Based Approach Primer** December 2<u>023</u> British OLUMBIA

# Introduction

This document is intended to assist the Government of British Columbia (the Province) in building an understanding of the legal basis for, and core elements of, a distinctions-based approach in all of the Province's relations with First Nations, Métis, and Inuit in what is now British Columbia. A companion document will provide guidance to public servants on the practical application of a distinctions-based approach.

A proper understanding and application of a distinctions-based approach is necessary for the provincial government, and is of particular importance for those public servants who are involved in decisions regarding the Province's relations with First Nations, Métis, and Inuit in British Columbia.

This document is not, nor is it intended to be, a complete or comprehensive description of the relationships the Province has with First Nations, Métis, and Inuit, which take many different forms and arrangements.

# **Requirement for a Distinctions-Based Approach**

The Province is required to take a distinctions-based approach in all of its relations with First Nations, Métis, and Inuit. This requirement has a legal foundation in the Constitution Act, 1982; the United Nations Declaration on the Rights of Indigenous Peoples (UN Declaration); the Declaration on the Rights of Indigenous Peoples Act (Declaration Act); treaties; as well as the respective and distinct laws, legal systems, and systems of governance of First Nations, Métis, and Inuit. This document helps meet this requirement by affirming the Provincial position and ensuring it is applied consistently in legislation, policy, and practice.

Constitution Act, 1982: Section 35(2) of the Constitution Act, 1982 identifies three distinct Peoples – Indian, Métis, and Inuit – as the "aboriginal peoples" of Canada.

The Supreme Court of Canada has confirmed that section 35(1) of the Constitution Act, 1982 includes a recognition of the "distinctive societies" of Indigenous Peoples, with "their own practices, traditions, and cultures:"<sup>1</sup>

- First Nations and Inuit are "distinctive societies" that pre-existed the arrival of Europeans, as sovereigns over their territories; and,
- Métis are "distinctive peoples who, in addition to their mixed ancestry, developed their own customs, way of life, and recognizable group identity separate from their [First Nations] or Inuit and European forebears."<sup>2</sup>

The term "Indian" was drawn from the federal Indian Act and is now used primarily in that statutory context. The term "First Nation" is now commonly used to describe the preexisting Indigenous Peoples who are distinct from Inuit and Métis. The term "aboriginal peoples" is used in the Constitution Act, 1982 to collectively refer to First Nations, Inuit, and Métis Peoples and, therefore, has been used in common law (court decisions) to date. The term "Indigenous" has now replaced the term "aboriginal" as the generally accepted term to collectively refer to First Nations, Inuit, and Métis Peoples. This term should be used intentionally and should not be confused with the term "First Nation," pursuant to the distinctions expressed in this document.

R. v. Van der Peet, [1996] 2 S.C.R. 507 at para. 31.

2 R. v. Powley, [2003] 2 S.C.R. 207 at para. 10 ("Powley").

### DISTINCTIONS-BASED APPROACH PRIMER [ 2 ]

UN Declaration and the Declaration Act: The UN Declaration affirms the diversity and distinctions of Indigenous Peoples, including in the preamble and articles 8, 15, and 34. The UN Declaration refers to Indigenous Peoples as "distinct peoples" that have their own "distinct political, legal, economic, social, and cultural institutions" and the "diversity of their cultures, histories, traditions, and aspirations." Section 1(2) of the Declaration Act states: "For the purposes of implementing this Act, the government must consider the diversity of the Indigenous peoples in British Columbia, particularly the distinct languages, cultures, customs, practices, rights, legal traditions, institutions, governance structures, relationships to territories and knowledge systems of the Indigenous peoples in British Columbia." The Declaration Act affirms the application of the UN Declaration to the laws of British Columbia.

Treaties: Treaties are constitutionally protected, government-to-government agreements that identify, define, and implement a range of rights and obligations, creating long-term, mutually binding commitments. Treaties set out the fundamental and unique legal relationship between the treaty Nation, the Province, and Canada. Article 37 of the UN Declaration emphasizes the right of Indigenous Peoples to the recognition, observance, and enforcement of treaties, as well as agreements and other constructive arrangements. British Columbia is unique in that it has both modern treaties (including Nisga'a, Maa-nulth, Tla'amin, and Tsawwassen) and historic treaties (Douglas Treaties and Treaty 8). Each of these treaties varies depending on the particular obligations, interests, rights, jurisdictions, and authorities that are recognized, and represent a critical element within the distinctions-based approach.

- The Respective and Distinct Laws, Legal Systems, and Systems of Governance of First Nations, Métis, and Inuit: The UN Declaration affirms Indigenous Peoples' right to self-determination and, in exercising this right, the right to autonomy or self-government.<sup>3</sup> Flowing from the inherent and human right to self-determination, Indigenous Peoples have the [collective] right to maintain and strengthen their distinct political, legal, economic, social, and cultural institutions.<sup>4</sup> In British Columbia, First Nations also have rights to own, use, develop, and control the lands, territories, and resources that they possess by reason of traditional ownership or other traditional occupation or use.<sup>5</sup>
- Provincial Policy and Practice: The Province must take a distinctions-based approach in all of its relations with Indigenous Peoples. Principle 10 of the Draft Principles that Guide the Government of British Columbia's Relationship with Indigenous Peoples states:

The Province of British Columbia recognizes that a distinctions-based approach is needed to ensure that the unique rights, interests, and circumstances of Indigenous peoples in B.C. are acknowledged, affirmed, and implemented. The Province recognizes First Nations, the Métis Nation, and Inuit as the Indigenous peoples of Canada, consisting of distinct, rights-bearing communities with their own histories, including with the Crown. The work of forming renewed relationships based on the recognition of rights, respect, co-operation, and partnership must reflect the unique interests, priorities, and circumstances of each people.<sup>6</sup>

- 4 UN Declaration, Article 5.
- 5 UN Declaration, Article 26.
- 6 Draft Principles that Guide the Government of British Columbia's Relationship with Indigenous Peoples, p7. 2018

<sup>3</sup> UN Declaration, Articles 3-4.

The Declaration Act Action Plan states:

The Province is committed to a distinctions-based approach. This requires that the Province's dealings with First Nations, Métis, and Inuit Peoples be conducted in a manner that acknowledges the specific rights, interests, priorities, and concerns of each, while respecting and acknowledging these distinct Peoples with unique cultures, histories, rights, laws, and governments. Section 35 of the Constitution Act, 1982, recognizes and affirms the rights of Aboriginal Peoples of Canada, while all Indigenous Peoples have human rights that are expressed in the UN Declaration. However, not all rights are uniform or the same among or between all Indigenous Peoples. In many cases, a distinctions-based approach may require that the Province's relationship and engagement with First Nations, Métis and Inuit Peoples include different approaches or actions and result in different outcomes.

# Meaning of a Distinctions-Based Approach

A distinctions-based approach, and appropriate respect for Indigenous laws and jurisdictions, means that the scope of rights enjoyed by an Indigenous People is contextual and that the Province's relations and dealings with First Nations, Métis, and Inuit will be conducted in a manner that is appropriate for the specific context, recognizing and respecting the distinct and different rights, laws, legal systems, and systems of governance of each.

The following elements of a distinctions-based approach reflect guidance from international law; the laws, legal systems, and systems of governance of First Nations, Métis, and Inuit; domestic Canadian courts; and the continually evolving laws, policies, and practices of British Columbia.

- Indigenous Rights are Not Uniform: Not all rights are uniform or the same among or between all Indigenous Peoples. These rights are diverse, distinct, and contextual under both domestic Canadian law and international law, arising from and in relation to their unique histories, circumstances, laws, legal systems, and systems of governance. As such, the Province's relationship and engagement with First Nations, Métis, and Inuit will require different approaches and result in different outcomes. For example, in the British Columbia context, a distinctions-based approach will result in circumstances where First Nations are engaged but Métis and Inuit are not engaged as rights holders, particularly with respect to the Province's processes, projects, or initiatives that relate to or have implications for the land, water, or air in British Columbia, or associated jurisdiction related to land, water, or air in British Columbia.
- The Laws, Legal Systems, and Systems of Governance of First Nations in Respect of Land, Resources, and Territories in British Columbia: First Nations, as territorial title and rights-holders, and the pre-existing sovereign societies that used and occupied lands and resources in British Columbia prior to contact, have their own laws, legal systems, and systems of governance that apply to those lands, resources, and territories. Those laws, legal systems, and systems of governance have not and cannot be unilaterally displaced.

<sup>7</sup> Declaration on the Rights of Indigenous Peoples Act Action Plan 2022-2027, p3. 2022.

Pre-Existing Sovereignty and Aboriginal Title of First Nations: A core purpose of section 35 of the Constitution Act, 1982 is to effect reconciliation of "pre-existing Aboriginal sovereignty with assumed Crown sovereignty."<sup>8</sup> There is a significant body of jurisprudence (common law) confirming the existence of Aboriginal rights of First Nations in British Columbia arising from this prior occupation. This includes a wide range of rights related to land and resources, including Aboriginal title and governance rights.<sup>9</sup> The courts have also confirmed a range of corresponding Crown obligations to First Nations arising out of section 35 of the Constitution Act, 1982. No such findings have been made for Métis or Inuit in British Columbia.

Diversity of First Nations and Government-to-Government Relationships: First Nations have diverse cultures, languages, histories, customs, and practices. In section 35 case law, Canadian courts have emphasized in multiple cases that First Nations' rights are pre-existing and inherent, and an expression of their distinctive societies that existed prior to the arrival of Europeans. A purpose of section 35(1) of the Constitution Act, 1982 is to protect this distinctiveness, and ensure just reconciliation with the Crown. This diversity must be respected in approaches to respecting and upholding inherent, constitutional, and human rights, and the relationships formed between the Province and First Nations.

Reflecting this, the Province has been developing relationships with First Nations in British Columbia over many years through political protocols and accords,<sup>10</sup> treaties, agreements, and other constructive arrangements, as part of reconciliation of pre-existing First Nations' sovereignty with the assertion of Crown sovereignty, as required under section 35 of the Constitution Act, 1982.

The Province also has treaty obligations in the pre-Confederation treaties on Vancouver Island, Treaty 8 in the Northeast, as well as the Nisga'a Final Agreement and Modern Treaties concluded under the British Columbia treaty negotiation process.

As well, consistent with the standards of the UN Declaration, the Province recognizes and supports the inherent right of self-determination, including self-government.

As reflected in the Province's guidance regarding Indigenous Governing Bodies (IGBs), the Province is continuing to realign and adjust its work with First Nations to support and reflect their priorities in Nation and governance re-building.<sup>11</sup> While the Province also regularly engages with the First Nations Leadership Council (FNLC),<sup>12</sup> on issues and matters of concern to First Nations throughout British Columbia, neither the FNLC nor any of the FNLC organizations is a Nation or a People and they do not hold rights and title. Accordingly, engagement with FNLC cannot satisfy any of the Province's obligations owed to First Nations who are the proper holders of inherent, constitutional, and human rights and title in British Columbia. Any government-to-government relationship is between each individual First Nation and the Province.

Haida Nation v. British Columbia, [2004] 3 S.C.R. 511 at para. 20.

<sup>9</sup> Tsilhqot'in Nation v. British Columbia, [2014] 2 SCR 257 at para. 44.

<sup>10</sup> See bilateral Commitment Document (2015) between the Province and FNLC, including the: a) Joint Agenda: implementing the Commitment Document – Shared Vision, Guiding Principles, Goals and Objectives (2018); and b) Joint Agenda: Implementing the Commitment Document – Concrete Actions: Transforming Laws, Policies, Processes and Structures (2018).

<sup>11</sup> Indigenous Governing Bodies in the Declaration on the Rights of Indigenous Peoples Act

<sup>12</sup> The First Nations Leadership Council or FNLC is a collaborative working partnership among the political executives of the BC Assembly of First Nations, First Nations Summit, and the Union of BC Indian Chiefs, formalized by a Leadership Accord signed in 2005. They work on topics of mutual interest established through resolution.

Métis Rights are Distinct from First Nations or Inuit Rights: The term "Métis" in section 35 of the Constitution Act, 1982 does not encompass all individuals with mixed First Nation and European heritage; rather, it refers to distinctive peoples who, in addition to their mixed ancestry, developed their own customs and recognizable group identity separate from their First Nation or Inuit and European forebears. As such, "the inclusion of the Métis in s. 35 [of the Constitution Act, 1982] is not traceable to their pre-contact occupation of Canadian territory."<sup>13</sup> Rather, "the purpose of s. 35 as it relates to the Métis is therefore different from that which relates to [First Nations] or the Inuit... The inclusion of the Métis in s. 35 represents Canada's commitment to recognize and value the distinctive Métis cultures, which grew up in areas not yet open to colonization, and which the framers of the Constitution Act, 1982 recognized can only survive if the Métis are protected along with other aboriginal communities."<sup>14</sup>

To account for the unique post-contact emergence of Métis communities and post-contact foundation of their Aboriginal rights, the Supreme Court of Canada set out a distinct common law test regarding Métis rights under section 35 of the Constitution Act, 1982 to recognize and protect those customs and traditions that were historically important features of Métis communities prior to the time of effective European control and persist today. This requires claimants to self-identify as Métis, <sup>15</sup> establish an ancestral connection to an identifiable historic Métis community (which is a "a group of Métis with a distinctive collective identity, living together in the same geographic area and sharing a common way of life"<sup>16</sup> ), and demonstrate they are accepted by a modern community, whose continuity with the historic community provides the legal foundation for the right being claimed.<sup>17</sup>

No Confirmed Identifiable Historic Métis Community in British Columbia: While Métis individuals have settled and live in British Columbia, there has been no court decision applicable to British Columbia that has confirmed the existence of any identifiable historic Métis community or Métis homeland in British Columbia. Further, the Métis Homeland, as defined by the Métis National Council<sup>18</sup> does not extend into British Columbia west of the Rocky Mountains.<sup>19</sup>

As such, there are no existing land, water, or air-based Métis rights or associated inherent jurisdiction in British Columbia that trigger the same Crown obligations that are owed to First Nations under section 35(1) of the Constitution Act, 1982 or international law, including the duty to consult and accommodate and the need to obtain free, prior, and informed consent. Accordingly, it is not appropriate to include Métis

- 15 "This self-identification should not be of recent vintage: While an individual's self-identification need not be static or monolithic, claims that are made belatedly in order to benefit from a s. 35 right will not satisfy the self-identification requirement.": Powley, supra note 2 at para. 31
- 16 Powley, supra note 2 at para. 12
- 17 Powley, supra note 2 at para 30-33.
- 18 The Métis National Council asserts it is the representative body of the Métis people of northwestern Canada and represents the Métis Nation both nationally and internationally. It receives direction from the elected leadership of the Métis Nation's provincial-level representative organizations being the Métis Nation British Columbia, Métis Nation of Alberta, Métis Nation Saskatchewan, and the Métis Nation of Ontario. as rights-holders in any of the Province's processes, matters, projects, or initiatives that relate to the land, water, or air in British Columbia, or associated jurisdiction related to land, water, or air.

As part of the political and social work of addressing the legacy of colonialism and systemic racism in British Columbia, the Province works with Métis Nation British Columbia<sup>20</sup> in respect of Métis who have settled and are living in British Columbia and to recognize and value Métis culture. This work is distinct in scope, nature, and purpose from government-to-government relations the Province has with First Nations. It is important that this work occurs in a manner which recognizes the inherent, human, and constitutional rights of First Nations and upholds the laws, legal systems, and systems of government of First Nations.

No Formal Relationship with Inuit Living in British Columbia: The Inuit do not have a historical homeland in British Columbia, so there are no existing land, water, or air-based Inuit rights or associated jurisdiction in British Columbia that trigger the same Crown obligations that are owed to First Nations under section 35(1) of the Constitution Act, 1982 or international law.

# **Applying a Distinctions-Based Approach**

Each ministry and agency across the Province must apply a distinctions-based approach in the development and implementation of its policies, legislation, programs, operations, and funding initiatives, and in its engagement and relationships with First Nations, Métis, and Inuit. This work must be done in a manner that reflects a distinctions-based approach and correctly identifies and engages the appropriate rights-holders.

The Ministry of Indigenous Relations and Reconciliation, with support from other ministries and working with First Nations and Indigenous organizations, will continue to provide guidance regarding a distinctions-based approach, and strategic advice for implementation of a distinctions-based approach across government.

# **FESL Feedback**

The <u>Framework for Enhancing Student Learning</u> combines accountability with evidence-informed decision-making to support a system-wide program of continuous improvement. The Ministry provided feedback on the district's <u>2022-2023 annual submission</u> on the Framework for Enhancing Student Learning. Feedback focused on five areas:

The feedback reflects the new templates issued by the Ministry of Education in August of 2023. In the coming year, we will ensure that the SD62 FESL Report captures all the great work we are doing with regards to engagement, school plans, and improving equity of learning outcomes.

# ENGAGEMENT

# McCreary Adolescent Health Survey

A key <u>report</u> on adolescent health has been released by the McCreary Centre Society. The survey is conducted every five years and has been running for 30 years. 38,488 students from Grades 7-12 in 553 schools in 59 districts in BC undertook the survey. The survey covers a wide range of topics from home life, school, and economic well-being to sexual health to adverse experiences. Today, 40 SD62 Grade 10-12 students met with members of the McCreary Adolescent Health team to discuss the findings. Tomorrow, there is a community forum at Royal Colwood Golf Club. 2-4pm.

# GROWTH

# New Data Dashboard

In the February 1701 cycle, our Data Integration and Analytics team launched a PowerBI dashboard for District Principals, significantly enhancing data accuracy and accessibility. This tool streamlines decision-making by providing real-time data directly relevant to departmental needs. This represents a substantial step forward in operational efficiency and data-driven management within our district, marking an achievement in our ongoing technological advancements.

# **Laptop Distribution**

The Digital Solutions team is actively collaborating with our CUPE partners to distribute 90 laptops across school and department locations to staff. This initiative is a significant move towards enhancing technology access and ensuring equitable access to communication and administrative tools. It underscores our commitment to fostering an inclusive and technologically equipped work environment for all staff. This project is expected to be completed before Spring Break.
